HIGH SPEED SOLUTIONS

As one of the UK's leading Traffic Management organisations, we are specialists in high speed solutions. We operate advanced high speed equipment and deploy the latest plant, including a fleet of Impact Protection Vehicles (IPVs). We are fully accredited to NHSS 12A and 12B standards.

HIGH SPEED SERVICES AT A GLANCE

- » Motorways and High Speed Dual Carriageways
- » Narrow Lane Systems
- » Lane Closures
- » Hardshoulder Closures
- » Tidal Flows
- » Full Road Closures
- » Diversions
- » Traffic Management Design including AutoCad and 3D BIM

LOW SPEED SOLUTIONS

Using local bases and experienced personnel, we can provide a 2-hour emergency response from all our strategic operational Hubs. We use innovative technology to track TM personnel and send the nearest to site. This ensures a fast response and reduces our carbon impact. Our 12D Accreditation enables us to offer an extensive range of low speed TM solutions in rural and city centre solutions.

LOW SPEED SERVICES AT A GLANCE

- » Multiphase Temporary Traffic Lights
- » Operative and Remote-controlled Stop/Go Systems
- » Pedestrian Signals
- » Signs, Barriers and Cones
- » Lane Closures
- » Road Closure / Diversions
- » Convoy Operations
- » Priority Systems / Contra Flows
- » Site Visits / Requirement Consultation
- » In-house manufacture of specialised signs
- » Leaflet drops
- » Flood defence

MAJOR PROJECTS

Go Traffic Management have huge experience of providing support to major contractors, utilities and developers for construction projects.

Our end to end services include initial consultancy, traffic management surveys, liaison with local councils and Highways Authorities and traffic management design. Go Traffic Management provide on-site delivery of traffic management solutions for major projects, including traffic diversions.

MAJOR PROJECTS SERVICES AT A GLANCE

- » Dedicated Project Lead
- » Planning
- » Design
- » Lane Closures
- » Diversions
- » Highways / Council Liaison

PROJECT MANAGEMENT, CONSULTATION & DESIGN

Go Traffic Management offer a comprehensive managed solution to meet your requirements, from initial liaison and design to project completion. We offer support from your project from start to finish, ensuring our solutions are right from the offset.

DESIGN SERVICES

With over 15 years' industry experience, our experienced in-house design team provide a comprehensive solution to your traffic management logistical needs. Go Traffic Management provide traffic management plans to suit any traffic requirement from a simple lane closure, two-way traffic layout to a fully comprehensive traffic diversion operation.

Go Traffic Management can provide a full 'Survey to Design' package. We'll conduct a site survey including risk assessments which are issued straight to our Design team to start work on in less than 4 hours!

PEDESTRIAN SITE MANAGEMENT SOLUTIONS

We offer a wide range of solutions to protect pedestrians. We work with manufacturers of barrier systems to deploy the latest solutions in terms of safety and compliance. Examples include MASS barrier systems, Stacca Barriers and water fillable barriers.

Our experienced traffic management personnel are trained to deploy pedestrian solutions, including Chapter 8 signage, compliant with New Roads and Streetworks Act. Where required, we supply pedestrian marshals. This may be applicable for events or Major Projects.

EVENT MANAGEMENT

We provide extensive, well planned and precisely executed temporary traffic and parking management solutions for a variety of events. Our experience includes large sporting events, festivals and parades. Our highly skilled teams provide end to end project management ensuring high-quality delivery.

We cover a variety of locations including city centres, stately homes and rural sites. We have the capability to meet your event traffic and parking management requirements. We can provide you with a solution which is well planned and safely executed.

SERVICES AT A GLANCE

- » Event Consultation and Planning
- » Site Survey
- » Traffic Modelling
- » Crowd Control
- » Stakeholder Consultation

WORK WE'VE COMPLETED FOR HAPPY CLIENTS

With Go Traffic Management you're in safe hands. Our experienced team deliver to high standards in terms of safety, professional conduct and outstanding performance. Using the latest traffic management equipment, our solutions can be relied upon.

“GTM managed all traffic management on behalf of the project over a number of years and many phased changes to road closures and traffic changes. GTM were always proactive and had a collaborative approach in this complex environment with a number of contractors involved.

Thanks in no small part to their efforts we were able to bring the project in ahead of schedule and keep the traffic moving in the area all the while.

“We have an agreement with GTM that means they have supported us with around 7000 contracts in the last 8 years. Their services, personnel and success rates are second to none. We will be continuing to work with them for the foreseeable future.

“We have a highways framework contract in place with Go Traffic Management. This contract has been ongoing for 6 years. The work completed by GTM is of the highest standard and always completed to the specifications we set out.

“Go Traffic Management has provided us with a variety of services over the last decade as part of the long term agreement that we currently have in place. The work they complete for us is of exceptional quality.

“We would like to thank Go Traffic Management for delivering such an excellent service at such short notice. We would also like to thank the team that attended our event, they were professional, efficient, friendly and showed a genuine interest in what we were doing, great guys”

WITH GO TRAFFIC MANAGEMENT YOU'RE IN SAFE HANDS.

Our experienced team deliver to high standards in terms of safety, professional conduct and outstanding performance.
